Subject: ASPECT costs for ITC
Date: Wednesday, April 24, 2019 4:47:00 PM

Monica and Chris,

As of 4/16 the ASPECT costs were reported as \$191963.07 with outstanding billing for satellite communications billing estimated at \$15,000. We were released on 4/19 by Gary Moore. I am estimating the amount for the extra days and some trailing fuel costs to be an additional \$45,000. That would make the response costs roughly \$261,963

We are having a conference call with the contractor at 09:00 tomorrow and can get you some more concrete numbers.
